

A REPORT ON ALUMNI INTERACTION

Organized by : Department of Computer Science and Engineering

Topic : Dot Net Full Stack development

Venue : SH-206

Date : 15/12/2025

Time : 2:30PM - 4:30PM

Name of the Alumni : Kathula Sukumar

Participants :

S.No	Year & Branch	No. of Students Participated
1	III-CSE	42

About the talk:

An interactive alumni session was conducted for B.Tech students focusing on **.NET Full Stack Development**, delivered by a graduated alumnus who is currently working in the software industry. The session aimed to bridge the gap between academic learning and real-world industry expectations.

About the resource person

- The alumni, **K SUKUMAR**, working as team lead in the domain of .net full stack development at **TATA ELXSI, Bangalore** shared insights on the **.NET technology stack**, including C#, ASP.NET Core, Entity Framework, SQL Server, and front-end frameworks such as Angular/React. Students were introduced to the typical workflow of a full-stack developer, covering API development, database integration, UI design, and deployment practices.
- The speaker also discussed **industry trends**, essential skills, project-building strategies, and interview preparation tips. Real project examples and practical challenges faced in the workplace helped students understand how theoretical concepts are applied in real scenarios.

GLIMPSES OF THE EVENT

Outcome:

The interaction was highly informative and motivated students to explore .NET Full Stack Development as a promising career option.
