

Department of CSE – IoT (Internet of Things)

Alumni Interaction

Organized By : Department of CSE-IoT, RCE
Date : 3rd Jan 2026
Venue : Ramachandra College of Engineering (A)

Introduction

The Department of Computer Science and Engineering (IoT) successfully organized an Alumni Interaction Program for the students. The alumni shared their professional experiences, career guidance, and insights into current industry trends.

The session was highly informative and interactive, motivating students to enhance their technical skills and career preparedness. The department expresses its sincere gratitude to the alumni for their valuable time and support.

Objectives of event:

To facilitate meaningful interaction between alumni and students of the department

To expose students to real-world industry practices and standards

Department of CSE – IoT (Internet of Things)

- To guide students regarding career opportunities, higher education, and professional development
- To motivate students towards continuous learning and skill enhancement
- To promote knowledge sharing and mentorship

Main Content

Here are the **main points** for the **Alumni Interaction – CSE (IoT)**:

- ❖ Interaction with alumni from the CSE (IoT) department
- ❖ Sharing of real-world industry experience
- ❖ Guidance on career paths and higher studies
- ❖ Discussion on current technologies and industry trends
- ❖ Motivation for skill development and placements
- ❖ Interactive Q&A session with students

Department of CSE – IoT (Internet of Things)

The Alumni Interaction Program was coordinated by **Mrs. A. Rama Devi**. During the session, the alumni shared their academic journey, professional experiences, and insights into current industry trends relevant to the field of CSE (IoT). Emphasis was laid on the importance of technical competence, communication skills, problem-solving abilities, and adaptability in the professional environment.

Department of CSE – IoT (Internet of Things)

The alumni also provided guidance on internships, placements, certifications, and emerging technologies. An interactive question-and-answer session enabled students to clarify their career-related queries and gain practical advice.

Conclusion

The Alumni Interaction Program was successfully conducted and proved to be highly informative and beneficial for the students. The session enhanced students' understanding of industry requirements and career planning. The department extends its sincere gratitude to the alumni for their valuable time and contribution, and to the coordinator **Mrs. A. Rama Devi** for the effective organization of the program.
