1. Report in brief by Organizer / Coordinator / Convener

An alumni interaction session was organized by Ramachandra College of Engineering featuring Mr. Saikireeti, a graduate from the Electronics and Communication Engineering department (2018–2022 batch). The session aimed to provide students with a clear understanding of industry requirements and career development strategies. During the interaction, Mr. Saikireeti spoke about his transition from academic life to his current role as an Associate Project professional at Cognizant Technologies, Hyderabad. He highlighted the importance of technical proficiency, continuous learning, and effective communication skills. The session proved to be highly beneficial, offering students practical guidance and encouraging them to make informed career decisions.

2. Profile of the Guest

Mr. Saikireeti is an Associate Projects professional at Cognizant Technologies, Hyderabad. He completed his graduation in Electronics and Communication Engineering from Ramachandra College of Engineering during the academic year 2018–2022. Currently working in the software domain, he has contributed to several design projects. During the session, he shared his experiences from college life, his transition into the corporate world, and provided valuable insights into the software industry, inspiring and guiding the students.

4. Feedback from Participants

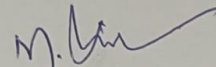

The third-year students of the Department of Electronics and Communication Engineering at RCE were delighted to participate in the alumni session organized by the college. The session was highly informative and interactive, offering valuable insights into industry trends and career opportunities in the software domain. Students expressed that Mr. Saikireeti talk was inspiring and helped them gain a clear understanding of how to prepare for their professional careers.

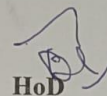

5. Remarks from Resource Persons:

It is a wonderful experience for me to revisit my college after graduation and interact with my juniors. Sharing my professional journey and guiding students on career opportunities in the software field made me feel proud and happy. I sincerely thank the management, faculty, and students of RCE for providing me with this memorable opportunity.
