Report

1. Report in brief by Organizer/Coordinator/Convener:

The guest had given the valuable words on coding like programming skills are valuable to any engineer as it allows them to succeed in their studies, broaden their career possibilities and offer new topics for their research. It also beneficially reflects on their skills, from creativity to problem-solving, and allows them to use modern technologies to their full potential. In fact, coding is becoming the most in-demand skill across industries. By learning how to code, they would not only be acquiring new skills to put in their resume but also be able to strengthen their problem-solving skills.
